

Tax Rate For 1948 Set At \$34—An Increase Of \$2

Newton's tax rate for 1948 has been set at \$34 per one thousand dollars of valuation, according to the Board of Assessors. This is an increase of \$2 per thousand dollars of valuation over the rate of last year which was \$32.

The Newton rate approved Wednesday by Commissioner of Corporation and Taxation Henry Long, is probably the lowest tax rate established this year in any of the 39 cities of the State.

Among other things, the increase was due to the heavy cost of snow removal during the winter and to the fact that out of available surplus funds, only about \$453,000 was used this year as compared with \$653,866 last year. This amount of \$453,000 is the lowest that has been transferred from the surplus account in the last two or three years.

Practically every community in the State, towns as well as cities, have experienced much greater increases in tax rates than that prevailing in Newton, many communities experiencing increases from \$4 to \$20.

Newton Red Cross Declares Several Important Changes

Designed as a move to coordinate all volunteer services into a more compact and flexible organization Newton Chapter of the American Red Cross, in accordance with National Red Cross procedure, has announced several important changes in its plans to enlarge its services to Newton residents. Featuring these changes was the recent appointment of Mrs. E. Graham Bates of Auburn as Chairman of Volunteer Services.

MISS ADELAIDE B. BALL

Eminently qualified for this important post through her long association with Red Cross activities, Mrs. Bates until recently was chairman of Public Information. Her other local community affiliations include membership on the board of directors of the Community Council, the chairmanship of the group work committee in addition to active participation in Girl Scouts and Auburn Women's Club activities. In her new position as volunteer services chairman, Mrs. Bates will assume the responsibility of merging all Red Cross volunteer services.

As executive assistant to Mrs. Bates the Newton Chapter of American Red Cross announces the appointment of Miss Adelaide B. Ball of Newton as vice-chairman. Well known for her local community interests for a number of years, Miss Ball was for three years president of the Federated Women's Clubs of Newton, served as program chairman for the Girl Scouts, on the service committee of the Community Chest, on the board of Newton community council and is

First Visitation of Bishop Nash, Sunday

Sunday, the Rt. Rev. Norman B. Nash, S.T.D., Bishop of the Diocese of Massachusetts, will make his visit to Trinity church. At this time a class will be confirmed and also dedication of the War Memorial will take place.

A description of the memorial states that the decoration of the reredos will be in color and gold leaf applied to the flat surfaces of the seven panels above the altar.

As seen from a distance it will appear to be a blending of color and gold as a beautiful background for the Altar Cross. A nearer view will disclose the rich detail of the composition, the subject of which is the clause from the Lord's Prayer: "Thine is the Glory."

The three narrow panels on either side of the large central panel will contain groups of figures which direct the attention to the central panel where the figure of the Christ appears above the Cross surrounded by a "Glory of Angels."

The Memorial also includes a Dedication Inscription to be carved on the center panel above the Clergy seats at the Epistle side of the Sanctuary.

What will Happen to Your Business?
When the owner dies, his business may be Sold,
Managed by a member of his family,
Managed by someone else for the benefit of his family.
All too often creditors force the sale of a business because the owner failed to make proper arrangements to have it continued.
If you want your business continued by a member of your family, or by someone else for the benefit of your family, you should make adequate provisions in your will for this.
To properly safeguard your family's future, you should make sure that your family will continue to get income from your business or will be able to dispose of the business at a fair price. In making plans to gain either of these objectives, you might find helpful the experience we have had in handling estates of people who owned their own businesses. Complete Plans For July 4 Celebration

May 17 a meeting of the directors of the Newton Centre Improvement Association was held at the Newton Centre Playground house to complete plans and appoint the final committee for the Annual 4th of July celebration and field day, which will be held at the Newton Centre Playground.

Parker F. Pond, the general chairman, says that this year's festivities will far surpass anything previously seen in Newton. More and bigger fireworks will complete an active day starting at 10:00 A.M., with morning events under the direction of J. Nelson Manning and William Axt. The swimming events at Crystal Lake will be planned by Walter Feinberg. The afternoon activities are in charge of Owen D. Murphy, with Evan Johnson, the city recreation director supervising baseball.

This year a special women's committee has been formed by Mrs. Hovgaard, Mrs. Parker Pond and Mrs. Dorothy Wilbar. There will be an evening entertainment before the fireworks, planned by Hassler, under the supervision of Bill Ripley—more and better fireworks than ever before. Ice cream will be provided by Lou Marks and there is no question — this year's party will be the best ever.

Constant Supervision Must Prevail

Announcement this week by the Board of Assessors that a two dollar increase in the tax rate over that which prevailed last year, should warrant no undue alarm at the moment. Especially is this so when consideration is given the fact that practically every town, not to mention cities alone, throughout the Commonwealth is in the forty dollar and higher brackets, and the end is not yet in sight.

Yet for all these facts, the future must be faced with realities, not wishful hopes. Unless costs, still rising, cease, it is inevitable that tax rates like everything else must climb. Newton fortunately, is not as yet facing the situation which is facing many another community in the State. Specifically, tax rates in some instances are bordering on the dangerous point and if they continue to rise in the future, confiscation of property may well result. Property owners particularly can pay just so much and no more towards the upkeep of government with its many and varied functions and demands.

Public necessities must be taken care of and properly so, yet public officials who would prove efficient must forever strive to eliminate the unnecessary and concentrate only and solely on the absolute need.

Newton today, with its comparatively low tax rate, is fortunate. Yet notwithstanding this fact, alert administration of civic needs must constantly be uppermost in mind not only today, but in the future as well.

Unemployment Benefits and Vacations

Student veterans who are planning to claim Readjustment Allowances under the G. I. Bill during the summer vacation period should know that these unemployment benefits are not available to veterans on vacations.

Veterans must be available for work and actively seeking work throughout each week for which they claim benefits. Furthermore, veterans must realize that if they intend to return to school next fall this fact automatically limits their availability to temporary jobs, and any further substantial limitation will make them ineligible for Readjustment Allowances.

Student veterans are also warned that they are not entitled to Readjustment Allowances for any calendar week for which they receive subsistence allowances under the G. I. Bill. Veterans who are planning to claim Readjustment Allowances should make sure that the period of subsistence allowances under the G. I. Bill has been terminated so that such subsistence allowances and readjustment allowances do not occur in the same week.

In Massachusetts, claims for readjustment allowances should be filed at any of the Employment Offices of the Division of Employment Security, the State agency which administers this section of the G. I. Bill.

Building Costs Not Likely To Drop

It is of course true that conditions which prevail in one neighborhood may not apply to another neighborhood, and these variations may have some influence on prices, but in general the opinion among the realtors is that building costs are not going to drop appreciably for the balance of this year. A few building materials have dropped slightly in price, and it is true that materials are both more plentiful and of better grade than was the case a year ago, but for the overall cost of building has not dropped materially. Heavy demands from any sources make it doubtful that costs will drop appreciably for some months to come.

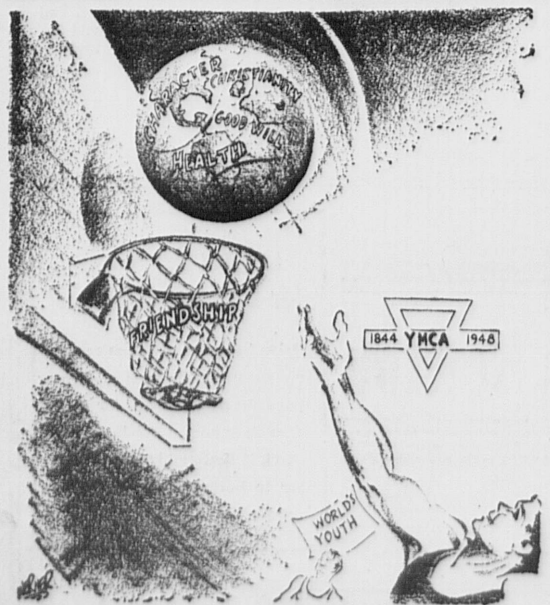

It is true however that many people who have been postponing building operations have now decided to go ahead. This is especially true in the medium-price field. Hence sales offerings in that field are increasing in numbers and improving in quality.

As to older houses, while neighborhood conditions may vary, prices in general have dropped materially from the extreme peak and are still tending to soften a bit, and while offerings are not numerous, there are still some very attractive buys on the market at fair prices.

The Spring real estate market hereabouts got off to a slow start this year, but in the past few weeks there has been a marked increase in activity.

The demand for well-located vacant land is quite active and prices show an upward trend.

RANDOM CLIPPINGS . . . In a Berkeley, Calif., court, James D. Morton apologetically explained to a judge why he had failed to pay a traffic fine imposed on him. He had given the money to his wife, he said, but instead of paying off the fine she spent it for the down payment on a divorce . . . In Paris, Alfredo Bindi tried without success to commit suicide by eating his suspenders . . . A two-pound package, bearing stamps which cost \$1,195,000 in Chinese money, was held up at the Wichita, Kans., postoffice because it lacked 15 cents of the necessary postage . . .

POLITICS WITH COLOR

(The opinions expressed in this column are the writer's own, and do not necessarily reflect the views or policy of this newspaper.—Editor's Note.)

Does Massachusetts Take Care Of Its Legislators?

"Information Please"

Just because there have been at least two raises in pay or other emoluments in the course of the past decade or so, in order that our solons would not suffer hardship while serving their constituents on Beacon Hill, I decided to dig out a few facts. A recent Christmas gift, John Kieran's well-known "Information Please Almanac," gave me the answers I was seeking, even though this book is not completely up to date. As an example, the pay of Legislators in Massachusetts is listed as a paltry \$2000 per year, with nothing mentioned about a very generous travel allowance. The actual pay is currently \$2500 per year.

Now, how does this compare with the other 47 states? It is the top compensation. Technically, you will find several states with higher pay, such as Illinois and Pennsylvania, at \$3500 and \$3000 respectively per legislative session. However, these two states have biennial sessions, so that you should divide the above figures by two to get the annual compensation. If there are extra sessions, as one of our local solons pointed out to me, there may be extra pay, but that also holds true to Massachusetts.

New York is listed in Kieran's book as paying \$2500 per session, but I am advised that this has been raised to nearer \$5000. Annual sessions are held in New York; also in Wisconsin, which pays its Legislators \$2400 apiece. All other states pay \$1000 a session or less; in most cases far less. One of the lowest salaries is found in New Hampshire, where \$200 per session is the official salary. Why do I bring this up today? Merely because there was a small item tucked away in the Boston paper last week about a pension having been voted to our own members of the Legislature. This item, incidentally, may not have been entirely accurate, inasmuch as I got the impression that all members who had served six years and were 55 years old upon retiring or after retiring, would receive \$1500 for life. That sounded rather substantial. In the case of Newton, two of our four Representatives would qualify immediately and another would have to serve but one more two-year term. However, a brief phone call to one of these public servants developed the fact that the legislation just passed merely places our solons in the regular state contributory system, under which they are obliged to kick in with 5% of their annual stipend before receiving any pensions; also, the annual pension is NOT \$1500 but \$500.

Well, it still looks as though Massachusetts was very generous to its Legislators, don't you think so?

Opposition to Gov. Bradford

Some people do not seem to take the rumors of real opposition to Governor Bradford very seriously. I refer, now to the G.O.P. primary election and not to the big scrap in November, when Paul A. Dever, one of the perennial Democratic contenders for some place in the sun, will presumably try his luck again. As a matter of fact, Dever gave Senator Saltonstall quite a battle a few years ago in a gubernatorial contest and he also made Lt. Governor Arthur W. Coolidge work a bit harder than he had planned to for the second spot on the state ticket in the fall of 1946.

As for Governor Bradford, it appears that what seemed at first like an idle threat from G.O.P. State Senator Edward M. Rowe of Cambridge may well become a genuine contest. There is a very wealthy businessman not so many miles from Boston, though well beyond Newton, who gets a tremendous kick out of spending large sums of money in some hopeless political cause. All the angles are not yet known to your columnist, who hopes to report on the matter again in the near future. Suffice it to say that the wealthy businessman in question appears to be glad to help finance the Cambridge Senator's primary campaign against Governor Bradford. What amazed me, however, was the report that this generous gentleman might even be persuaded by Senator Rowe to help him to conduct an independent campaign for Governor AFTER Governor Bradford has won the regular G.O.P. primary nomination. That, of course, could conceivably do some little damage to the Governor's election campaign. There are always a lot of political sore-heads who refuse to vote for the candidate of the other major party, but who would possibly, vote for a member of their own party running as an independent candidate. Let's wait and see what develops during the next month or two. Senator Rowe will find the going rather tough if he really goes through with his present plan. There is much to be said about his record on Beacon Hill which will greatly interest a lot of Republicans who do not keep in close touch with political affairs.

Questions for Mr. Truman

The UP story in the Boston papers made it obvious that President Truman's tour through the Middle and Far West this week and next is chiefly a political barnstorming affair. Of course, White House aides have called it an official inspection trip or some such name, just as did the late F.D.R., when he was running for his fourth term in the fall of 1944.

Now, here are a few pertinent

questions which the G.O.P. high command might well ask our Chief Executive.

1. Please explain the reversal on our U. S. policy regarding the partition of Palestine. Did oil have anything to do with it?
2. Why do we let Great Britain arm Arabs for the purpose of killing Jews in the Holy Land? Are you hoping that the recognition of the new Jewish state will offset these mass killings?
3. What happened to those investigations of voting frauds in Kansas City, which smelled to high heaven and which are part and parcel of your own state, Mr. President?
4. What, Mr. President, is your present attitude toward the Taft-Hartley Act, which you heartily disapproved, but which you hastened to use to get yourself out of a bad jam?
5. Finally, Mr. President, what is the real explanation of the cold water dashed in the faces of the Russian people when they made an apparently sincere gesture toward achieving a Soviet Union-U. S. understanding, with all that that implies?

Strikes and Labor Troubles

Editor, Newton Graphic:

No intelligent person will deny that wage earners have the right to collective bargaining or the right to strike in the sense of quitting work or walking out. In a democracy it is not only their right but their privilege to do so. But picketing, or by other means preventing others from exercising their right to work, is nothing less than an assertion of military prerogatives and an attempt to gain an objective by the use of force. Likewise, sit-down strikes which involve occupying and taking possession of another man's property are acts of militarism in defiance of civil law and constituted authority. Labor unions as organized today should be shorn of their tyrannical and coercive powers by legislative action. It should be unlawful for any man to stand in the way of anything which wants a job and is willing to work. There should be competition in labor as there is competition in industry. That is the democratic way. Moreover, a walkout of more than fifty percent of the workers in any unit of a basic industry should be regarded as a revolt or rebellion against the Government and dealt with as such.

On the other hand, wage-earners — the workers who turn out the products of industry — should be guaranteed a fair return for their labor. That means a minimum wage that

The World Today and Tomorrow

By MARY LOUISE STAPLETON

The will of the world is bent towards peace. And yet in the failure of the four powers to achieve unity on many important questions many people have become completely disillusioned. They allow their minds to drift toward war. They scorn all reference to the United Nations as an ultimate solution to world crisis. They dismiss it by immediately linking it with the debacle of the League of Nations. They fall easily into the worship of history which foretells for

our century is how to eliminate war. If human life is to survive there can not be another war. The reason of mankind has forged the United Nations. Its greatest outward difference from the League is the membership of both the United States and Russia. For the organization to have been achieved so rapidly after the war, to have reconciled so many conflicting philosophies and diverging views into areas of agreement, is in itself amazing. Its charter principles still stand firm in the surging waters of diplomatic war. The remarkable thing is that after so much disunity among the Big Five on whose agreement its life depends, it should be standing at all. It has furnished not only a major outlet for the big powers for their grievances — its very existence has tempered their actions. It is the court of world opinion which every nation, even that of the Nazis, sought to woo. Its continued existence gave men all over the world hope that peace may yet prevail permanently.

Peace is the most powerful symbol in the hearts of all men. The U.N. is the symbol of their will to achieve it. Those who weaken peace in it weaken the chance to achieve peace. It is obvious in the present state of politics both here and abroad that the nations are not ready to establish a world organization which would enforce its decisions on any nation large or small.

Yet because the fruit does not ripen quickly, we should not cut down the tree. World government, which is the answer to the entire problem, will involve only if people will labor towards it by supporting the sole organization which we have been able to achieve, the U.N.—the infant pledged to lasting peace.

But understanding of the true unity of the world, of the interdependence of nations both economically and politically will not

in itself give us the strength nor perception to achieve either world government or peace. The crisis of our period is an intellectual one. It has to do with the spirit and the application of reason. For some years now it has been the fashion to scorn men who possessed ideals, who believe in the brotherhood of man. They are labelled idealists. Yet all men have ideals. They may deal with narrower interests; in securing wealth, business success, a personal security.

These name-calling debates are academic and stupid. The evidence is apparent that the world is slowly becoming one. Ideas are the greatest weapons in the world. For ideas control the minds of men, act as they believe. Our progress to world unity will come as we translate into reality our belief in the rights of man, in the brotherhood of man, in the equality of man, regardless of race, creed, money, or any other factor save that of humanity alone.

For years we here in America have heard these ideals enumerated in the stirring phrase, the eloquent affirmation of the brotherhood of man. In the unforgettable words of our Declaration of Independence, in the Gettysburg Address or any one of hundreds of speeches, articles or books written by men of thought, our inalienable rights have been proclaimed. Not freedom granted alone to American citizens, but to all men regardless of race or creed. It is not difficult to assert many different violations of our framework of government, but these do not invalidate the greatness of our democratic concept. They only emphasize that it is a continuous pattern of life which we seek to obtain. The course has been charted. As we progress or regress we may pace our distance from our democratic goal by its translation into reality in our daily lives.

Going on Vacation? Then Remember This —

BEFORE YOU LEAVE—ON THE WAY—

1. Stop milk, newspapers and other deliveries. Ask a neighbor to keep advertising circulars off your porch.
2. Don't lower window shades. If you are to be gone three weeks or more, arrange to have your lawn mowed. Prowlers watch for such tip-offs.
3. Notify postoffice to hold mail, or arrange delivery to a neighbor.
4. Lock windows and doors. Remember basement windows and coal chute.
5. Shut off gas and water at main valves. Shut off electricity at master switch unless refrigerator or food locker is to be left on. If current must be left on, disconnect lamps and appliances at wall outlets. If refrigerator is disconnected, leave door open to prevent mold.
6. Inform police how long house will be vacant and where you can be reached in emergency.
7. Service car thoroughly, with close attention to safety features such as lights, brakes, tires, steering, windshield wipers.
8. Put a first aid kit and flashlight in glove compartment. Be sure you have all tire tools.

AFTER YOU ARRIVE—

1. Relax. Don't try to crowd a year's exercise into two weeks.
2. Take the sun in easy doses. Don't nap in the sun. Wear sunglasses.
3. Stay out of the water for at least an hour after eating, and swim in sight of others. Be sure water is deep enough and free of obstructions before diving. Don't try to swim too far.
4. Distribute the load evenly in boats. Don't stand up. If you fall out and the boat stays on an even keel, climb in over the stern. Most boats won't sink, so stay with it until help comes if it capsizes. Check the weather before going far on a large lake.
5. Don't spill gasoline while flying an outboard motor afloat. A small amount of gas may spread on the bilge, set the entire boat afire when the motor starts.
6. Don't sample berries, touch unfamiliar plants, or drink impure water.
7. Carry an insect repellent with you.
8. Stay away from high ground and single trees in a lightning storm.

Former Finger Lake Residents
Invited to Home Coming

Editor,
Newton Graphic:
I have just received a letter from a High School student in Auburn, N. Y., dated May 21, reading:
"To the Honorable Mayor and Members of the City Council:
The pupils in the schools of the Finger Lake region of Central New York are seeking to discover the thousands of former residents of this lake region who are now living elsewhere. We are soliciting in order that we may send them personal invitations to visit their former home communities this summer when 'Anniversary and Homecoming Year' will be observed with many special events.

"I am trying to obtain the names of those former residents who are now living in your city. I know of no one who might aid me as well as your honorable body. Perhaps you will see fit to give this letter to your local press so that it may catch the eye of some of the former inhabitants of communities on Skaneateles, Cayuga, Seneca, Keuka, or Canandaigua Lakes. If the former Finger Lakes people in your city will write to me at West High School I shall extend them an invitation to return on this 'Anniversary year' and tell them how we hope to entertain them.

"We want all those former residents to know that, though they have gone away, they are not forgotten. We shall be deeply grateful for anything that you, the gentlemen of the government board, can do to aid our guest."

The letter bears the signature of Angelo C. Capone.

THEODORE R. LOCKWOOD,
Mayor.

Newton IN THE PAST

55 Years Ago — June 2, 1893
NEWTON UPPER FALLS—The new park improvements are being pushed rapidly forward, and the grounds are expected to be ready for opening about June 17. The bridge is nearly finished and workmen are busy on the broad steps leading to the bluff overlooking the river. The outdoor ice cream pavilion adjoining the hotel is being built; the band stand in the grove is nearly finished and workmen are busy on the dance hall. Mr. Brewer, a colored chef from Boston, is to have charge of the hotel and refreshment service.

NEWTON LOWER FALLS—Fitzgerald Bros. barge "Belle of Newton" conveyed members of St. John's Cadet Band to and from Newtonville on Memorial Day.

NEWTONVILLE—The square was filled with people Tuesday afternoon during the formation and march of Charles Ward Post and the escort military organizations to the cemetery. The High School battalion made a fine appearance and the firm tread of the Veterans recalled the stirring scenes of real warfare.

50 Years Ago — June 3, 1898
NEWTON—Members of Newton's fashionable clubs endorse the artistic hair cutting at Burns, Cole's Block.

NEWTONVILLE—The new foot bridge over the Boston & Albany railroad is much appreciated by residents on the north side of the track, especially when in haste.

NEWTON LOWER FALLS—Wheelman and tourists may be pleased to learn that on Sundays throughout the season, St. Mary's Episcopal Church will welcome all riders and will care for wheels in the parish house adjoining the church. The morning service is at 10:45. The service is about an hour and might prove restful and interesting after a 10 mile spin.

35 Years Ago — June 6, 1913
Letter to the Editor—Dear Sir: It is high time that some action is taken in renaming "Newton Corner." It should be called Nonantum. . . . Let the public be informed of the meaning of the word—its association—and I am sure it will adopt it. The word Nonantum (Indian) signifies in English, rejoicing, and is on our City seal—Nonantum.

Youth Parade To Be Held In October

The Most Reverend Richard J. Cushing, D.D., has announced plans for a huge Youth Parade on the first Sunday in October. Simultaneously, with the announcement, Rev. George M. Dowd, Director of the Catholic Youth organization, as General Chairman of a large Committee of Priests and laymen made plans for the handling of thousands of marchers, as well as floats and bands representing 360 Parishes; Educational Institutions; Junior Catholic Daughters; Junior Foresters; Columbia Squires; Girl Scout and Boy Scout Units and hundreds of parochial societies of young people will also participate.

Youth Parade Day will be marked by a three part program in each Parish—Confession, Holy Communion and Mass for all the Youth. Distinctive costumes and insignia will distinguish hundreds of units as the colorful pageantry of the floats will dramatize the C.Y.O. motto "The Cause of Youth is the Cause of Christ". "That particular day" said Archbishop Cushing "will be dedicated to the boys and girls, young men and women throughout our Diocese. The spiritual interests of the young will naturally be given chief consideration. These young people will attend Holy Mass and receive Holy Communion and march in a body later on that same day. Then we shall have a repetition of what was to me the outstanding feature of the Holy Name Parade: thousands of Catholics, adorned with the brilliant robe of sanctifying grace, will walk the streets of Boston."

Patricia White To Star At Welleley

The Wellesley Summer Theatre has announced that Miss Patricia White, one of Hollywood's brightest young movie stars, has signed a contract to play ingenue and leading roles in all of the plays to be produced at Wellesley this summer. Miss White is currently playing opposite Glenn Ford in Undercover Man, a Columbia picture which they will finish shooting by July 1, allowing time for her to fly to Wellesley for the opening rehearsals on July 5th.

Miss White, who is a protegee and former student of executive director Eldon Winkler, has made nine pictures in a little over a year.

Patricia White hails from Davenport, Iowa and is the daughter of a prominent midwest physician. She trained under Mr. Winkler while he was directing for Maude Adams at Stephens College. Later she graduated from Columbia University, where she played leading roles in numerous plays. She has appeared in two Broadway productions, Laughing Water and Calico Wedding.

Mr. Winkler plans to feature her in each production and to star her in the leading role of Mary in John Love's Mary, the Norman Krasna comedy hit, which recently closed a two year engagement in New York.

The season opens on Tuesday, July 13th and runs until Saturday, August 14th. Invitations for season subscriptions will soon be placed in the mail.

The opportunity to share in the fun and bring home prizes is being proffered by Hal Newell, the program's master-of-ceremonies. Tickets can be had by clipping the coupon from WEEI's advertisement found elsewhere in this issue.

Hal Newell, master-of-ceremonies, is well-known throughout New England as a first-rate sportscaster as well as for his good job done at "Breakfast in Boston"; Tommy Russell, announcer of the broadcast, entertains and makes the ladies feel at home with his sparkling wit and ready sense of humor; Fred Flint, accordionist, adds a gay musical note to the broadcast.

Tom Calhoun is the producer of the program and Dorothy Ramlose, "Miss Breakfast in Boston," is the gayly costumed hostess.

Everyone has fun, many bring home gifts of valuable merchandise, given them for taking part in the games and Newton gets a boost in a popular radio program.

Heart Disease Project To Be Conducted In Newton

A unique heart disease project is being launched in Massachusetts through the State Department of Public Health in cooperation with the Framingham and Newton Boards of Health. The project, conducted by the U. S. Public Health Service, the State Health Department, and the Department of Preventive Medicine of Harvard Medical School, may uncover enlightening information which will help reduce sickness and deaths resulting from heart disease in adults.

Up to now, heart disease in adults—the nation's leading cause of death—has had relatively little attention from health authorities largely because prevailing and accepted public health methods have not been thoroughly explored for controlling heart disease.

The Heart Disease Epidemiology Study and the Heart Dem-

onstrations Program, two parts of the project, will be carried on in Framingham and Newton, respectively. Another phase of the work, which really paved the way for the project in Massachusetts, has been in operation

get the program underway Monday at the Chapter House. Along with the numerous veterans he has pledged his blood for this drive.

School children have also joined in the campaign. Flyers were distributed to the children in the schools of Newton asking for blood to build up the bank.

Every effort is being made to notify citizens of the urgency of this appeal. Perhaps these children will someday require the blood sought in this drive.

Mrs. F. Brittain Kennedy, 1 Gammons road, Waban, local chairman of the drive, says that 300 pints of blood are needed to meet present demands. The appeal is for 100 pints per day over the three day campaign.

Class of '50: Ann Lesser, Patricia and M. Pauline Noel (Twins), Beverly Brainerd, Dale Morse, and Jetta Entwistle.

The program began with the processional "God of Our Fathers" by Warren, which is the School Hymn. The Rev. William B. Rice of the Wellesley Unitarian Church gave the invocation.

Other selections sung by the School, under the leadership of Mr. Gerald F. Fraser, director of music, included the prayer from "Hansel and Gretel" by Humperdinck; "Roses of the South" by Strauss; and "In the Harbor We've Been Sheltered" by Loud.

A luncheon for members of the graduating class and special guests was held in the students' dining room at 1:15, and the ivy planting ceremony took place at the Nurses Home at 2:00 p.m. Immediately following graduation exercises an informal reception was held in Winslow Hall. Senator Richard H. Lee and Representative Howard Whitmore Jr. spoke at a meeting of the American Veterans' Committee in Newton, Thursday evening. New housing and education legislation and other topics of special interest to all veterans were discussed.

Hampton—

(Continued from Page 1)

Drive at Raytheon in 1943 and was the first editor of the Raytheon News, a 24 page paper of which 15,000 copies were issued every two weeks during the war years.

In commenting on the fall drive, Mr. Hampton states, "The purpose of the yearly Community Chest Campaign is to raise funds to enable the Red Feather Agencies to continue doing the friendly, human things in our community which help make life worth living. Our understanding of the purpose, and the problems solved by these agencies will help each of us determine the support we will give these services through the Chest. We all lead such busy lives that it is impossible for us to know intimately all the people who are helped by our gifts. Few of us comprehend the direct, personal benefits we receive ourselves resulting from the work done by our Red Feather Agencies. It is the duty of the campaign organization to inform everyone in Newton concerning these points so that they will want to give generously this fall."

As assistant chairman for the coming campaign, chairman Hampton has appointed Harold T. Pillsbury, Dwight C. Arnold, Harold S. Goldberg, and Dexter C. Whittinghill. Goldberg was assistant chairman in the 1948 campaign, and Pillsbury, Arnold and Whittinghill were division chairmen. As members of the executive committee the following will assist Mr. Hampton: Thomas E. Shirley, 1945 campaign chairman, Lawrence B. Damon, 1946 campaign chairman, Franklin K. Hoyt, 1947 campaign chairman, and E. Graham Bates, 1948 campaign chairman.

Reverend Dr. and Mrs. Robert Clyde Yarbrough of West Newton.

The concerto will be played, of course, "without the notes". In addition to this landmark in her musical training Miss Yarbrough possesses absolute pitch and improvises modestly but quite freely at the keyboard.

Joan is also playing this concerto next Sunday the 13th at the 2nd Congregational Church West Newton with their organist playing the orchestral part on the organ.

Colorful Exercises To Mark Elks Flag Day Ceremonies

The most colorful Flag Day exercises ever held by Newton Lodge of Elks will take place Monday evening at 8 o'clock in the Elks Home, Centre Street, Newton.

The speaker will be Lieut. John Fisher who served with the Navy during World War II. A recitation "The History of the Flag" will be given by Dennis O'Brien, a pupil of Our Lady's High School, who is also a member of Troop No. 30, Boy Scouts of America. A musical program in keeping with the occasion has been arranged.

The Order of Elks claims, and with a justly founded confidence that it is the most practical effective patriotic organization in America, Flag Day is the particular event which furnishes testimony, of an inspiring and dramatic character, of its patriotism and loyalty.

America today needs the inspiration of real Elks. Great performances do not just happen; they indicate tireless effort and preparation. Old Glory floats in a peace threatened by Communist greed for world domination. It is the duty of every Elk to do everything to preserve our priceless freedom, and every one should thrill with pride over our service to humanity, our communities and our nation.

The committee in charge includes Joseph Chevarley, chairman; Oswald McCourt, Dana Foley, Francis V. Terry, Martin E. Conroy, Arthur T. Wasserman, Kenneth A. Stiles, Thomas Coppinger and Frank Lada-bouche.

The flags the property of William Filene's Sons Co., are being loaned to Newton Lodge by Charles L. Berg, Past Exalted Ruler of Arlington Lodge No. 1435, chairman of Americanism for the State Department, American Legion.

All patriotic organizations in the city have been invited to take part and every member of Newton Lodge with his family and friends is urged to attend and give evidence of true devotion to our great country and loyal allegiance to its starry emblem.

It is requested by the committee that all ex-Servicemen of the lodge appear in uniform.

Cadillac

Since word of the new Cadillac was first heard by the public, tens of thousands of people have placed their orders for these magnificent cars.

It is the greatest upsurge in popularity in Cadillac's eventful history—and is due, in great measure, to the striking beauty and individuality of the new Cadillac models. More than ever before, Cadillac leadership can now be seen—and thousands who have never before aspired to Cadillac ownership are deciding to be done with compromise and own the "Standard of the World."

We think you would find it enlightening to inspect the new Cadillacs at close range, and would be happy to have you visit our showrooms at your convenience.

Work of Marion E. Dougherty Is Being Shown This Month

Through the month of June, the Clairhorne Galleries, at 243 Washington street, are showing the work of Marion E. Dougherty.

Miss Dougherty has mastered the difficult technique of painting flowers in water color, and at times her work shows a richness and depth of color which is seldom attained in this medium. In her marines she shows the same understanding of the sea as did her famous cousin, Paul Dougherty, who is generally acknowledged to be the country's leading marine painter.

The exhibition is open to the public at no charge, and in line with other exhibitions at the Clairhorne Galleries is intended to introduce artists of merit to the public.

Heart—

for nearly three years in Philadelphia.

A unit has been allotted to the Newton Health Department where it will set up the Heart Demonstration Program under the immediate supervision of Dr. Ernest M. Morris, Director of Public Health in Newton. Dr. Lewis C. Robbins of the U.S. Public Health Service is the Medical Officer for the unit.

The Newton project will be a pilot study to develop a community program to meet the increasing problem of heart disease in the adult population. Answers will be sought to the question as to what part the local health departments will play in helping to reduce the prevalence of heart diseases. A careful survey will be made of the services now available to persons afflicted with heart disease. Still another task will be the preparation of a basic manual for the guidance of workers in a public health heart program.

The Public Health Committee of the Newton Medical Club will serve as advisors in making plans for the public health heart program in Newton. The committee consists of Dr. George Bowers, Dr. Theodore Clark and Dr. Egon Kattwinkel, with Dr. Herbert G. Dunphy, President of the Newton Medical Club, as an ex-officio member. A committee from the Newton Dental Society is to be appointed.

No Reason for Long Term Appointments Now

A state of open warfare exists between the Republican Senatorial majority and President Truman over appointments to the Judiciary and other high Government offices—an issue that assumes special importance in an election year.

The Senate's reluctance to confirm long-term presidential appointments has brought protests from Administration leaders. To charges of "politics" the Senators remind the President that his Administration was repudiated in the 1946 elections, when the people installed a Republican Congress.

Overlooking the Constitutional provision that "appointments shall be made with the advice and consent of the Senate," the President refused to listen when Republican leaders sought an understanding immediately after those elections.

Republican Senators suggest, therefore, that since he disdains the "advice and consent" of the Senate on appointments, the impasse can be bridged by pigeonholing his New Deal recommendations, thus enabling him to make interim appointments (after Congress adjourns) to continue only until the new Eighty-First Congress convenes next January.

In the meantime there is that all-important election in November. With factions of the Democrat Party now in revolt against the President and impartial polls pointing to a Republican landslide, Senate leaders see no reason why Mr. Truman should be allowed to hand out large-term political jobs for his favorites.

This is an eminently reasonable point of view. The question is not the integrity or loyalty of the Truman backed appointees, but whether those men can be expected to cooperate with a Republican President in achieving the objectives for which his Administration stands—those objectives having been approved by the citizenry in November. A Republican President certainly would not represent the New Deal, and therefore, certainly should not be expected to be hamstringing by the remnants of an outmoded, out-of-office, New Deal regime.

They Deserve What They Ask

The letter carrier is a bewildered man as he trudges his route these days. His patrons are congratulating him on getting a salary increase that Congress has never granted. Friendly columnists and radio commentators have even announced the amount of the raise, but the mailman has never got it and no salary increase bill has passed either the House or the Senate.

The discouraging feature is that Congress plans to adjourn on June 19, slightly more than a week away. There is still time to give the mailman this well-deserved raise, but action must be quick or it will be too late. He hopes that his friends will urge Congress to give him the pay raise that everyone thinks he deserves, and which he so badly needs. Even in the rush of last-minute legislation the wants of this loyal public servant must be given consideration.

The mailman has been patient and uncomplaining, but he should not be neglected. His faithful service merits the reward of an adequate salary increase. Every Newton citizen endorses this fact.

Thirty-Five Vital Votes From Massachusetts

Local Senatorial Contest

In view of the fact that New England never has had much success in promoting either a Republican or a Democratic nominee for either President or Vice-President of the United States it is extremely interesting to note the profound interest being manifested by Presidential candidates Thomas E. Dewey and Harold Stassen in the votes which will shortly be cast by the 35 delegates from this state. Stassen came to Boston and seemed to feel that he had gained ground in his campaign as a result of his contact with the G.O.P. delegation. Governor Dewey has just done the same thing and from all appearances has made even more progress than the former Minnesota governor. One observer phrased it somewhat as follows: "Stassen is a high-grade, clever amateur, whereas Governor Dewey is a skilled, professional politician."

If you stop to think about that analysis, it may occur to you that the average voter may be more intrigued by the comment on Harold Stassen than by that on the New Yorker. However, it is, of course, the so-called professional politicians who pull the strings behind the stage at national conventions. On the other hand, these same professional experts are apt to stop, look and listen rather carefully before they produce their final nominee. After all, it is the much-abused and constantly-bewildered average voter who, in the last analysis, decides who the next President will be. Just remember that. If a few thousand voters in each and every state would only make a point of contacting their convention delegates well in advance of the convention and letting them know what candidate or candidates they favored, there would be a lot less wire-pulling behind the scenes prior to the balloting. For my part, I am taking pains to let ALL our 35 delegates know my personal views regarding the G.O.P. nominee.

Another interesting development is the sudden return to Boston of Speaker of the House Joseph W. Martin, Jr. of North Attleboro. According to the headline in one paper, "Martin Feels He's Dark Horse." The story said, among other things, that "if fight to the last ditch for our war-time party and his country indicated they wanted him (Martin) to run for President, he certainly would accept the honor." I'll say he would. Otherwise, why would the Speaker of the House desert his important post in Washington in the closing days of Congress, when a lot of vital legislation is either being properly jammed through that body or else is being dumped in the waste-basket?

Now, the ordinary voter can extract a little cheer from the remark attributed to our Governor, to the effect that he never had seen a delegation "as unpledged as this one." And that is precisely your commentator's impression, despite the insistence of many Democrats that our former Mayor, Sinclair Weeks, holds the entire 35 votes in the hollow of his hand. It is generally understood that at least a dozen and quite possibly more of our delegation are tremendously interested in Dewey, Stassen and Taft,

to name the three leaders in the current race for the big prize. Furthermore, at least two or three delegates are vitally stirred by the possibility that the brilliant, statesmanlike Senator from Michigan, Arthur H. Vandenberg, may eventually win the nomination (This veteran legislator is my personal choice, come what may).

There is one angle to the coming conventions which is worthy of considerable thought. Some people are wondering if there is very much sense in promoting a lot of favorite sons all over the country, knowing in advance that only one or two, at most, have the slightest chance of getting anywhere. Just how to go about the business of doing away with this custom, assuming that there was substantial sentiment for so-doing, is another matter, presenting many complications. Let's be very frank about it. The nomination of Leverett Saltonstall, our distinguished senior Senator, who has just been awarded an honorary degree by William and Mary college, the oldest in the country, except for Harvard university, would be greeted with tremendous enthusiasm by the voters of Massachusetts in both parties. Can you blame the ardent backers of this favorite son if they decide to fight to the last ditch for our war-time Governor, who is one of our Gold Star Fathers? Certainly not. It follows, therefore, that a number of other states may also have favorite sons who deserve more than casual recognition by a national convention.

On the other side of the picture we have the cold, hard fact that about 300 delegates were listed as "pledged to favorite sons" as recently as June 2. Think of it: 300 out of a total of 1,094 delegates. That, incidentally, does NOT include the votes of New York, Ohio or Minnesota, the states from which the three front runners come. (Reference is, of course, to Messrs. Dewey, Taft and Stassen.) Now, let us suppose that only favorite sons with an obvious national following of importance were allowed to enter the pre-convention picture. That would do away with several estimable gentlemen who know in their hearts that they do not have one chance in a thousand. It would, however, leave room for

men like Vandenberg, Saltonstall and Eisenhower, assuming that that distinguished citizen had not taken himself out of the race at an earlier date. This problem deserves some serious thought.

Congressman Herter

Once again our Congressman from the 10th district has been signally honored. Hon. Christian A. Herter has been awarded an honorary degree by Bowdoin college, where he was described as one of the ablest members of Congress and as an outstanding statesman. The popular congressman's thousands of constituents will be delighted by this well-deserved recognition.

Local Senatorial Contest

For a number of reasons, which will be given quite frankly later on, my comment on the local State Senatorial contest in the G.O.P. primary this coming fall will be brief.

In the first place, anyone connected with political affairs, even remotely, has realized that SOMEBODY would eventually challenge our present State Senator, Richard H. Lee. That much has been obvious for several months. The main question was, "Who would make the challenge and would the challenger be a man of any real standing in the community?" The answer to the last question is, of course, in the affirmative. I have known Alderman Donald L. Gibbs for a good many years and have great respect for his character and ability. I count him as a good friend.

Second and last, I very much regret Alderman Gibbs' decision, which, from what I have heard, was a bit sudden. There are two reasons for this. Regretting the necessity for being personal, may I say that Donald Gibbs has put me on precisely the same spot occupied by me in the Lee-Patrick contest just two years ago. Your commentator sat that one out and remained neutral from start to finish. That is exactly what will happen this year, with one proviso. And that brings me to reason number two. If the Lee-Gibbs campaign develops along certain lines (and I earnestly hope that it will NOT), I shall reserve the right to call a spade a spade and publicly rebuke anybody who acts or speaks in an unsportsmanlike manner. And that, my friends, is that.

WOULD YOU SAY NO if this French child asked for a bite to eat? He is hungry—and an orphan—one of the 230,000,000 children throughout the world today not getting enough to eat. The "Crusade for Children" is raising money that this child's appeal and the appeal of children all over the world for food and a healthy life may not be in vain. In Massachusetts, the "Crusade for Children" is seeking \$2,500,000 as part of a national goal of \$60,000,000. Give that others may live.

Newton IN THE PAST

55 Years Ago — June 9, 1883
EDITORIAL — Everyone remarks about the excellent condition of the Newton streets this season, which is a high compliment to Superintendent Ross. It is said that he can put a street in good repair for less money than any official Newton ever had, and that he saves his salary many times over every year.

NEWTON UPPER FALLS — The new post office sign put up this week for Postmaster Billings is a handsome article and conforms to the latest post office recommendations in containing the name of the village in which it is situated. Newton Centre is the only other place in Newton observing this recommendation.

NEWTON HIGHLANDS — We note that our city fathers have ordered the ringing of the bells on the 17th of June. It is hoped that some competent person will be engaged to do that service in this village for such ringing as we had last year was more than the patriotic citizen can stand. Let it ring, not toll. The same will also apply to the glorious 4th of July.

CITY GOVERNMENT — The official inspection of the new police building at 9 o'clock gave the board members a 50 minute rest. They were also given an opportunity to announce their position towards the electric car lines later in the evening. This, they did most emphatically as when a request was introduced by Alderman Heymer suggesting that the street railways supply the members of the board with

G. A. England Bending All Effort To Increase Amount Of Exports

Newton Rotary Club was especially fortunate in having Jeffery H. Alden of England as its speaker. As a representative of one of the scholarships given by the Paul Harris Foundation, he demonstrated to all what a splendid idea Paul Harris had in establishing these scholarships. Mr. Alden has been studying for his Master's degree in history at Harvard this year. He is a graduate of Trinity College, Cambridge, and served as a Captain in the 18th Royal Hussars during World War II.

He gave a most complete analysis of England's economic problems. England's economy has been based on paying for her imports by her exports of manufactured goods. As a result, agricultural production has been greatly neglected. With the war, England turned her manufacturing output entirely to munitions and so had nothing to trade for food. Now she is bending all her efforts to increase her production of fabricated goods in order to boost her exports to the point where she can pay for her large imports of food and raw materials without continuing to be in debt to other countries. In order to do this it will be necessary for England to increase her exports to 175% of those she made in 1938. Great progress is being made, however, in this field.

Swing-Skirt Gingham

Country cotton with urban airs—little checked charmer that goes gracefully from seashore to city store. New notes: self-fabric spaghetti bow, tunnel collar, cool clipped sleeves. Nice note: the tiny price, typical of Queen Make's genius for giving you a lot for a little. Sanforized* Dan River gingham, in grey-and-blue, grey-and-yellow, pink-and-aqua, 12-20.

Sunday School Pupils Picnic-Going Sat.

Sunday School Pupils of the First Unitarian Church, West Newton, and their parents will have a picnic and outing Saturday. This affair will be held on the grounds of Tabor School Camp, Needham.

The committee in charge of the program is planning an afternoon of outdoor activities that will precede a supper cook-out.

KINGSTON GRASS SEED MIXTURE

Many of Newton's finest lawns were planted last fall or this spring to our famous KINGSTON GRASS SEED MIXTURE.

This formulation is the result of many test plots in operation at the Rhode Island State College Experiment Station. Plants planted to this mixture are harder and more closely knitted than others.

The remarkable feature about this grass mixture is that it contains no so-called nurse grasses but all perennials which throw out runners at or under the ground. This means the turf will be more dense and weed-free as it becomes older.

Being the finest mixture known to us, it is of course the highest priced per pound. But as less seed is required, the price becomes realistically economical and in the end gives the finest turf at the lowest per square foot cost.

This being our own special mixture for high grade lawns, athletic fields, and golf courses, we will copyright the name and thus protect our customers from inferior substitutes.

The fifteen ton piece of ultra modern fire fighting apparatus, a combination pump, hose wagon and ladder, carries its own 150 gallon water tank also.

Chief John L. Keating operated the 87 foot hydraulically controlled ladder and a member of its crew climbed its great height aided the greater part of the way by steel hand rails. Mayor Urges Safety Over Fourth Holiday

Mayor Theodore R. Lockwood in a statement issued this week, appealed to all citizens to make an effort to keep down the accident toll during the Fourth of July celebration period. He stated:

"The City of Newton wants to take its rightful place in the nation-wide Fourth of July program now being conducted by the National Safety Council to hold down the holiday accident toll. 'I earnestly ask every citizen of our community to join with me in his safety endeavor by accepting personal responsibility for avoiding accidents over the holiday week-end celebration.

"Let us remember that the Fourth of July celebrates our nation's hard-won freedom and independence. To preserve it has been a costly endeavor through many struggles, so let us not add to the cost in human life by needless tragedy and suffering that result from holiday accidents. 'Let each of us dedicate himself to making this Independence Day celebration one of safe and sane festivity.'"

Files Report Analyzing Effect Of Developments

Newton Taxpayers Association has filed a report proposing a satisfactory method of analyzing the effect of developing certain tracts of land in Newton for apartment house construction as compared with single family construction insofar as it would affect the city's income and expenses.

The scope of the report is limited to discussing the aspect of profit or loss to the city. It deals only incidentally with social questions.

In regard to the effect multi-family dwellings will have on the character of the city, the report reads:

"For many years it has been recognized that apartment house developments allow for a more efficient use of city services. But our problem is to assay the financial effect of such developments specifically in Newton. This is a preliminary attempt to find a method of determining to what extent the city of Newton would gain or lose."

The text of the report lists and classifies the various items of profit and loss to the city and expresses the evaluation of each class in formulae that can be used generally. It assumes that there will be no weakening of the zoning laws.

The report adds: "Newton is in the middle band of an expanding metropolitan area. How we use our undeveloped land and vacant lots will affect the character of the city for years to come."

Forecasting The Price Trend

Will commodity prices go up? Go down? Stay where they are?
Newsweek recently asked 50 leading economists, connected with business, labor, governmental, statistical and educational institutions to forecast the price trend for the balance of the year. Twenty-six thought prices would continue upward; 14 said they would remain about the same, and the remaining 10 believe they will be lower by the year's end.

Averaging the answers, the consensus is that prices won't change substantially one way or the other. That may be a disappointment to the consumer, who has watched the dollar shrink like wool in water, but it is completely understandable. Spending by government business, and the individuals—goes to higher and higher peaks. The vast sums being spent for foreign aid and military purposes will further strain the supply-demand balance. And millions of Americans have a higher standard of living than they ever had before.

So, when you go shopping, don't expect to find a lot of bargains soon. What you will find, however, are merchants who sell you what you want at a far lower profit margin than most people realize. The profits per sale are so small, generally speaking, that if they didn't exist at all it would make little difference in your purchasing power. Retail trade, whether we realize it or not, deserves much of the credit for the abundance that exists in this nation.

POLITICS WITH COLOR

(The opinions expressed in this column are the writer's own, and do not necessarily reflect the views or policy of this newspaper.—Editor's Note.)

Pre-View Of G.O.P. Convention Will Vandenberg Win?

Inasmuch as next week's column may appear after the Republicans have made their nomination for the Presidency, I shall take this opportunity to analyze the situation as it exists today (June 15).

Perhaps the most significant development of the past week or two has been the feeling of many observers that there may conceivably be a double deadlock at the coming Philadelphia convention. Of course, the first and almost undisputed deadlock will be that between Dewey and Taft and, possibly, Stassen.

The reasons for this have been explained both here and in the Boston papers many times. We must all bear in mind that the three leading candidates, as of today, will, of course, make bold claims that they will have an initial vote of some 250 or 300 votes on the first ballot. Should that prove to be the case, it might well be that the front-running candidates will make substantial gain on the second and third ballots. If that is the case, it is just possible that the nomination will be made without the necessity of indulging in a typical Democratic marathon race. Many of us recall that old battle-cry of "Alabama casts 24 votes for Underwood."

Now, it seems more likely that the G.O.P. deadlock will not be resolved too quickly. This brings me to the more recent development, which suggests that the original deadlock may give way to a second struggle between the two leading dark-horses today, namely, Senator Arthur H. Vandenberg of Michigan and Speaker of the House, Joseph W. Martin, Jr., of Massachusetts. The former, whom many, including your columnist, favor for the nomination, is the choice of the typical internationalist, whereas the latter, whom many still consider an isolationist, will be the choice of those who have never been too keen about our participation in world affairs and who have paid chiefly lip service to the United Nations. It must be remembered, also, that Speaker Martin would, quite possibly, be the choice of the members of Congress in a secret ballot. This is due to the fact that Martin has been the leader of the larger branch of Congress and has always been the professional politician type. Senator Vandenberg, on the contrary, has been known for his statesmanlike attitude toward all matters of public policy, especially those having to do with international problems.

Let us consider briefly what may happen if this second deadlock should come about. The inside strategists of the G.O.P. are smart enough to realize that the most important thing for them to do is to place in nomination a candidate who has the best, or practically the best chance to defeat President Truman OR whatever unexpected candidate the Democrats may come up with. As Clifford Wiley, one of our newer commentators in this vicinity pointed out night before last, the G.O.P. leadership will be most indiscreet if it does not consider very seriously what might happen if the Democrats should spring a surprise and secure former General Eisenhower's consent to run as the Democratic nominee. Just think what would undoubtedly happen to a relatively weak nominee like Speaker Martin if he found himself opposed by Eisenhower. The resulting slaughter is horrible to contemplate. This is not to be construed as a real reflection on the popular Speaker of the House. The point is that his popularity with his fellow-Congressmen and his popularity with the rank and file of the public are two entirely different things. In other words, it is within the power of the G.O.P. leaders to produce a Martin nomination, if the delegates become weary of excessive balloting. It is definitely NOT within the power of these same G.O.P. leaders to persuade the average voter in this country,

with special emphasis on the Republicans of all types, to vote for Martin, even against a relatively weak President like Harry S. Truman. It is no secret that the average Republican voter is becoming increasingly canny and independent. This holds true for the average independent voter, too. Many times have I heard the threat by normally good Republicans that a Taft or a Martin nomination would force them to vote for President Truman as the lesser of two evils.

Consider, now, what might happen if there should be this second deadlock and both Senator Vandenberg and Speaker Martin were left out in the cold, even if temporarily. What would the delegates do then? Would they turn their eyes to California and Governor Earl Warren or would they jump all the way to New England and select Senator Leverett Saltonstall, despite his handicap of coming from New England, a fact which normally rules out even a Grade A candidate? What are the other possibilities? Neither Governor Green of Illinois or Senator Martin of Pennsylvania impresses the average voter unduly. The same holds true of Rep. Halleck of Indiana, Senator Baldwin of Connecticut and one or two others. Frankly, if the three front-runners, Dewey, Taft and Stassen and the two big dark horses, Vandenberg and Martin, are all eliminated FOR GOOD, it is more than likely that the big-shots in the G.O.P. will come up with another of those unpopular "smoke-filled room" nominations. And that would be tragic, in my humble opinion.

Finally, I should like to make a few personal comments, based on my own course of action if I should be a delegate. My first choice for the nomination would be Senator Vandenberg and my second choice Governor Dewey. Why?

Senator Vandenberg rates as one of the really big men in the two branches of Congress. He is mature, seasoned, statesmanlike and endowed with vision. Originally an isolationist, he was big enough to acknowledge his mistake and soon became a tower of strength for the cause of internationalism. He renounced all ambition to be President for the sake of putting the ERP through the Congress. He would, if nominated, receive practically solid Republican support and a great deal of support from the Democrats. Independents would also go for him in a big way, especially the women, many of whom are and always have been ardent believers in our strong participation in foreign affairs. There appears to be little against the Michigan Senator except his age and the fact that his physical condition is not perfect. However, statistics show that President Truman is practically the same age and you don't hear many people complain that he is too old to run again, do you? Again, Senator Vandenberg's doctors have merely said that it would not be wise for him to indulge in too strenuous a campaign for the nomination. Well, if he has lifted a finger up to date, very few people know about it. If nominated, he could undoubtedly make a reasonable campaign, especially via the radio and with the help of strong and tireless campaign orators who could go all over the United States in his behalf. Incidentally, many think that he

would prove such a powerful candidate that it would not be necessary to make an all-out campaign. On top of that, a Vandenberg nomination would cut the ground from beneath the Democrats in their attempt to get Eisenhower to accept their nomination. Eisenhower might be tempted to run against a Taft or a Speaker Martin, but never against a sincere and long-tested internationalist like Vandenberg. Governor Dewey is my second choice. He might well have won

the Presidency in 1944, except for the war and the powerful candidacy of F. D. R., running as "Commander-in-Chief." Dewey is a strong vote-getter and has proved his competence as Governor of the largest state in the Union. Also, he is a great campaigner and has the best radio voice, bar none, of all men in the public service today. He would make a good President.

Your columnist's third choice is a toss-up between Harold Stassen, former Governor of Minnesota and Governor Earl Warren of California. My very last choice would be a brilliant man, intellectually, and a man of real courage. Senator Robert A. Taft of Ohio. It is unfortunate that he has absolutely no political sex-appeal and would very likely be defeated by Mr. Truman, especially if the latter gains strength on his numerous swings around the circuit.

The smart nomination would be Vandenberg. I think he is the man they will have to beat.

Retirement Fund Cost On Upswing

Newton's contribution to the Retirement Fund is on the upswing this year due to increases in salary and pensions of city employees and deficits resulting from lower mortality rates, according to latest reports from George B. Buck, actuary of the Newton Retirement System.

The City is expected to contribute \$51,170, an increase of \$25,618 over last year. In 1946 the contribution was \$55,197.

Mr. Buck set the amount payable at \$74,270, but charges in the pension rate effective July 1,

Wellesley Theatre Opens July 13

Because of the enthusiastic support received last year from the people of Wellesley and surrounding communities, Wellesley College has decided to continue

PEGGY WOOD

the Wellesley Summer Theatre. Wellesley is the sponsor, but this theatre really belongs to members of the Wellesley and Greater Boston communities.

They are very happy to announce that Miss Peggy Wood, one of the most gracious and talented ladies of stage and screen, will star in the opening production of the season—the highly entertaining *First Lady*, a comedy by George S. Kaufman and Katherine Dayton. This play will open July 13 for one week.

Also, Patricia White, one of Hollywood's brightest young movie stars, will be featured in *John Loves Mary*, Norman Krasna's popular comedy which recently closed a two year run on Broadway.

A carefully chosen group of well-known New York and Hollywood actors has been engaged for the full season, and at present they are negotiating for such worthwhile and famous guest stars as Ann Dvorak, Jose Ferrer, Ruth Chatterton, Brian Aherne, Ernest Truex, Eddie Nugent, and Lois Wilson.

Ticket prices and policy remain the same as last year, except for a slight change in the seating arrangements for the two higher priced sections. For convenience, season subscriptions are offered at a reduced price. Aside from saving, this means that you will have seating preference by purchasing the same seats for the same night throughout the season.

Gath To Seek Seat In Legislature

The north side of Newton including Wards 1, 2, 3 and 7 which includes Newton, Newtonville and West Newton, the 4th Representative District in Middlesex County, will definitely

HARRY GATH, JR.

participate in a lively election contest with the announcement of Harry Gath, Jr., 800 California Street, member of the Ward 2 Republican City Committee that he is a candidate for the state legislature.

As a prominent civic leader for 15 years in this district especially in the development of a general sports program even as sponsor of the "round the year" program since 1936, Gath has gained thousands of friends and supporters in that area and throughout the city. He has been a business owner in Newton for 21 years and is a residential property taxpayer in Wards 1, 2 and 7.

Gath was prominent in the extensive relief activities for veterans during World War 2 and in his "alumni" of Gath's Guards registers some 183 members. Father didn't use his telephone so very often
today's business men need good service and lots of it . . .
If you figure father's time as 1910, there were only a quarter as many telephones in New England as there are now—and far less use was made of them.
To meet today's increased demands for service, we've installed new equipment in 537 central offices in the past two and a half years; we've put up new buildings or additions in 86 places; and added thousands of miles of wire and cable throughout the territory we serve.
The job isn't finished yet. But we're serving more people than ever, and we're well on our way to giving everybody better service.

RECENT WEDDINGS.

Hart-Stanwood

At 4 p.m. on June 12, 1948 in Trinity Church, Copley Square, Boston, Miss Rosamond Fowler Stanwood, daughter of Mrs. Richard Russell Stanwood of Waban, and the late Mr. Stanwood, became the bride of Mr. Oliver James Hart, Jr., son of Rt. Rev. Oliver J. Hart and Mrs. Hart of Philadelphia, Penna. Rt. Rev. Oliver J. Hart officiated at his son's wedding and was assisted by the Rev. Theodore P. Ferris, rector of Trinity Church. The bride was given in marriage by her uncle, Mr. George S. Fowler of Glen Ridge, New Jersey.

The slipper satin wedding gown worn by the bride was the same gown which her sister-in-law wore when she became the bride of Mr. Richard Russell Stanwood, Jr. It was made with a lavalier neckline, long sleeves tapered to points over the hands, and a sweeping train. Her veil of shirred illusion, edged with ruching of the same material was of fingertip-length and fell from a halo of tulle and orange blossoms. She carried a bouquet of gardenias and stephanotis falling in a cascade.

Her maid of honor, Miss Alwyn

Scott Taggart, of Melrose, wore a gown of pale yellow marquisette with full sleeves tight at the wrist, and a tight bodice above a flowing skirt. Her picture hat with open crown was made of the same pale yellow marquisette. Her cascade bouquet consisted of mixed spring flowers and ivy foliage. The bridesmaids, Miss Vivian Ruth Phillips of Newtonville, and Mrs. Ralph S. Archibald of Melrose, wore gowns and hats of similar style to that of Miss Taggart. Miss Phillips' gown was of pale peach and Mrs. Archibald's of light blue marquisette. They carried the same type of cascade bouquets of mixed spring flowers and ivy foliage.

Mrs. Stanwood wore a floor-length coral crepe gown for her daughter's wedding with grey tulle hat and matching accessories. Her corsage was a Canhambrana orchid. Mrs. Hart, mother of the groom, wore a gown of brown lace, with a wheat-colored hat. Her corsage worn at the waist, was a Cymbidium orchid.

Mr. Thomas Price Mikell of Germantown, Penna. was best man for his nephew and the ushers included Mr. Richard Russell Stanwood of Needham,

brother of the bride, Mr. William E. Mikell of Germantown, Penna., cousin of the groom, Mr. Oakes Ames of Cambridge, and Mr. G. Blake Sabine of Boston.

The bride is a graduate of the Katherine Gibbs School, Boston. The groom prepared at Saint Alban's School, Washington, D. C. and attended Williams College prior to service as a radar officer in the Army Air Forces during the war. He is now a student at the Moore School of the University of Pennsylvania.

Jacobs-Stedfast

With woodwardia ferns, white snapdragons and double stock forming the decorations for the 8 o'clock candlelight service in the Union Church, Waban on Saturday evening, June 12, Miss Anne Louise Stedfast, daughter of Mr. and Mrs. Stanley Wilton Stedfast of 443 Chestnut street, Waban, became the bride of Mr. Philip Richmond Jacobs, also of Waban. Rev. Richard P. McIntock performed the ceremony and a reception followed at the Waban Neighborhood Club.

The bride, given in marriage by her father, wore a gown of palest ivory slipper satin fashioned with high neckline, low fitted bodice with draped front forming a bustle back, and a very full skirt terminating in a long train. Her long veil of heirloom lace belonged to her mother, and her Colonial cascade bouquet was of lilacs of the valley, stephanotis and phlox.

She was attended by her sister, Miss Edith M. Stedfast, who wore lilac faille taffeta with off-the-shoulder neckline on the fitted bodice and a bouffant skirt. She wore matching mitts and carried a Colonial bouquet of yellow, lavender and aqua flowers. The bridesmaids were Miss Nancie C. Stedfast, another sister of the bride, of Waban; Mrs. Philip C. Ellis, sister of the bridegroom, of Lexington; Mrs. Charles L. French, Jr., of Hanover, New Hampshire; Miss Gladys T. Rand of Newton, Mrs. William R. Quinlan of East Weymouth and Miss Nancy Hemenway of Wellesley Hills. Donors Gave 174 Pints Of Blood Here Last Week

Last week marked the visit in Newton of the Red Cross Bloodmobile Unit. The Unit was here for three days to collect donations of blood for the National Blood Program. The visit coincided with a very crucial time in the history of the Blood Bank. It was one of the few times when the supply of blood at the laboratory was completely exhausted.

It depended upon the cooperation of the Newton Blood Donor Committee and the generous donors who gave their blood to supply the bank with the blood it so urgently needed. It has been announced by Mrs. F. Brittain Kennedy, chairman of the National Red Cross Blood Program here in Newton, that as successful as Newton was in this instance in supplying the blood that the bank needed, the quota of actual pints of blood obtained was not as high as had been anticipated. One hundred seventy-four pints were collected.

The next blood donor days in Newton will be August 7 and 12. It is hoped that Newton as a civic minded and forward-thinking community will this time fully fill the needs of the Red Cross Blood Bank. It is not too early to start thinking and planning for these blood donor days in the future. The Bloodmobile Unit will be at the Newton Red Cross Chapter House on those days to receive donations. Make your appointment now. You may call Lasell 7-6000 and make your appointment — DONORS —

MEN DO HAVE A LOVE FOR CHILDREN

We are so apt to overlook the every day good deeds of men, that we accept them as a matter of course. Yet occasionally our lethargic sense of reason is jolted, and jolted hard, with the realization that there are men, and busy men too, who find time—yes make time—to bring a little sunshine into the lives of little tots who through misfortune suffer silently and uncomplainingly, hoping—sometimes hopelessly—that the day will come when they will be well enough to take their place with other children.

We refer to the good deeds being done by members of the Newton Kiwanis Club. Elsewhere in this issue is a story of just one instance of the humanitarian work which members of the local Kiwanis Club is doing, not for public or individual glory but because they possess a feeling, a tenderness and a kindness towards these little tots. Many of these men with children of their own perhaps silently are giving prayer of thankfulness that their own have been spared. Yet whatever motivates them to these good deeds there is without doubt thanks bursting forth from little hearts who know that men do have a love for children.

We ask our readers to digest this story to which we refer. If they do, a lump will come into the throat and into the mind will come a heartfelt appreciation for kindness and the goodness of these men who are helping to brighten the days for suffering little tots.

SAFETY SHOULD BE THE WATCHWORD

Fourth of July weekend this year will involve nearly four days of the heaviest passenger car traffic the nation has ever seen over its highways. Motorists and pedestrians should plan to "take it easy" during the Independence Day weekend.

This will be the first long holiday weekend after the closing of schools, and about 25 million boys and girls will be playing out of doors. There will be one passenger car on the streets or roads for every school child in America, and because these youngsters no longer have the protection of Safety Patrolmen, they are going to create a problem for holiday drivers.

Good rules to observe for safe driving are: drivers should get an early start after a night of refreshing sleep, so they won't have to make up time when the traffic jams start; don't weave in and out of traffic; don't stay behind the wheel if fatigued or dizzy from sun glare; obey stop signs; don't jump the gun on the yellow light, and be courteous to other drivers who are also out to enjoy that July week-end.

NEWTON UPPER FALLS GARDEN CLUB

The Newton Upper Falls Garden Club met at the home of Mrs. George A. Malanson, Jr. of 22 Mercer road, Needham Heights, last Thursday. Mrs. Malanson was assisted by Mrs. John Hart, Mrs. Anthony Valente, and Miss Alice M. Temperley as co-hostesses.

A Cook-Out Supper was served to twenty-two members followed by the business meeting held in the home of the hostess, Mrs. Harold T. Sprague, president, presided at the business meeting. The roll call was answered by each member showing a rose from their home garden.

Members were assigned to the project of furnishing 100 bouquets of garden flowers each Wednesday in the month of July for the U. S. Marine Hospital at Brighton.

The next meeting will be September 16.

The World Today and Tomorrow

By MARY LOUISE STAPLETON

One of the greatest problems of our country today is whether or not we will by our actions make our ideals reality. If we do not live up to our words, if we do not breathe life into them, they are but harbingers of death for the government, possibly for civilization itself. It is not enough to prattle of principles. We must demonstrate the strength of our belief in them in peace as well as war. We had to die for them in battle because in the past we had refused to sacrifice for them in peace.

Our progress toward a true world community will be measured by our faith in the brotherhood of man. That is the simple truth the war of mankind should teach us. In that simple statement which many will jeer at because it seems so visionary is the key to world unity. No laws, no organizations, no courts nor government can grant us the psychological unity which understanding of the unity of mankind can create among us. Ideals give us the deepest motive for cooperation. We face a period fraught with such tension and danger as mankind never dreamed of.

It is true that there are many races and peoples in the world. They do not all understand or believe in the same laws of conduct. Men are diverse. They do have varying customs and practices. If we conceive of a universal ideal of justice as a host of laws or customs which are binding upon all people everywhere, then it will be easy to demonstrate how such a universal law is not anywhere in existence. A universal law of justice is a standard for justice. It is similar to Democracy which nowhere ideally exists, but which is granted life under a framework of government which allows thru law for the making of such conditions as is stated in its ideals a reality. Our modern task is to see that all over the world conditions exist for the establishment of the conditions of freedom. Universality does not mean uniformity. It is in the difference between men that growth is promoted. Each society, as each individual, has its own unique contribution to human worth. In the U.N., however, all the nations of the world have agreed upon certain minimum conditions which are common to the experience of all mankind. Peace is the greatest of them.

You can contribute greatly to the advancement of peace thru out the world. If you in your family, in your club life, in your roles as citizens of the world, will stand and be counted as among those believing without reservation in the ideals upon which this government is founded, you will give courage to others to do so. There will be many in this country who will become discouraged as the Russians do not immediately act towards world peace. The Russians do not believe in the strength of the individual nor the power of democracy. They believe it to be decadent. They think that we shall lose faith in our ideals and that the strength of wisdom of the state shall prevail over us. Only our faith can show them this is not true. We cannot lose faith because one action intended to make it real fails. This is childlike in concept and resolution. Do not identify the principle with any particular solution of the problem save in one way. That way is to direct us to the problem to be achieved. The principle furnishes us a standard to which our solution should conform. The principle itself is not bad just because our solution may be. Believe in Democracy. Its ideals are now embodied by voluntary agreement in the U.N. to which even the Russians subscribe. It has not removed the difficulties of language or ideology. Not of national interest or religion. But it does provide us with a measuring stick, a faith by which we may be able to cope with the

difficulties along the way. We had better be ready for many, many troubles and failures. But that is no reason to quit, to abandon our faith. Let us not cast away the great strides we have made toward world unity in the U.N. just because we cannot accomplish all that we might desire.

The road to peace is not a charted one. The way has many twists and turns, but the horror of two world wars has taught us many things which must be avoided if we are to achieve lasting peace. One is to say things, to state principles without the intent to act upon them. The history of the period just prior to the second World War shows that such a course but leads to war.

Thus we cannot allow the Russians to continue to force revolutions of government or to expand without definitely understanding the course of their action. The efforts made by our government to stop the menacing surge of the Russians toward war is well known. But how much thought, how much emphasis has been given the constructive policy of the country toward peace?

In the Brussels Conference we can see one of the monumental achievements of history. The beginning of a United States of Europe, with patterns for living which will allow men to dwell in freedom and peace. The passage

An Editor of Babson Reports. An address delivered at meeting of the Junior Women's Group on May 24.

of the Marshall Plan will give to these countries enough of the minimum economic strength with which to pursue their purpose. The individual nations will be able to cloth and feed their citizens, thus giving them hope for betterment of their status without abandoning their right to live as human beings.

It is to be hoped that as the Soviet see the world slowly working its way to peace without any attempt to encroach upon their security they will be inspired to collaborate with us to peace. They can gain nothing further by bluff—and everything thru the application of genuine international cooperation. However, it is not to be supposed that a nation which does not believe in the power of the masses will be easily converted to the application of the idea of brotherhood thru a world government with equal representation of all nations.

However, we have no choice but to pursue our course of holding our principles firm. We must resolve to hold our present course of honor and firmness. And each individual citizen must assert his belief in the power of democracy, in the strength of the brotherhood of man, in the faith of his ideals. He must assert them as tho his very life depended upon them. For indeed it does.

ing the largest number of tickets to the Music Night Concert. The picture was accepted by the homeroom chairman, Helen Skanderian.

The Girls' Color Team cup, which is presented to the color team receiving the highest number of points for participation in after-school color team games, was won by the Green Team, captained by Connie Thornton. The presentation was made by Beverly Moss, captain of last year's winning Yellow Team, to Joan Daniels, co-captain, in the absence of Connie, due to illness.

After announcing that the red and yellow numerals would be presented to the winners by their homeroom teachers, Mr. Scarborough, assisted by David Starkweather, School Community President, and Griffith Jehu, Jr., III Class President, awarded the Warren letter "W" to thirty recipients, most of them members of Jr. II and Jr. III. To twenty-two members of Jr. III Mr. Scarborough personally presented the school pin which is the highest award that may be received for service rendered to the school during a pupil's three years at Warren.

For the second time since its origin last year the Lt. Simon Surabian Memorial Award, presented in memory of a member of the Warren faculty who died in service during World War II, was awarded to the boy and the girl in Junior III who best fulfilled the qualifications of leadership in athletics and citizenship required for this award. The proud owners of this year's medals are Beverly Moss and John Dutton. In addition to receiving the medal their names will be inscribed on the Lt. Simon Surabian Memorial Award plaque.

POLITICS WITH COLOR

By P.W.C.

(The opinions expressed in this column are the writer's own, and do not necessarily reflect the views or policy of this newspaper.—Editor's Note.)

Massachusetts Is Not United at G. O. P. Convention

Despite the fact that the G.O.P. convention will be over (we hope) by the time this column is read, there are a few comments which seem pertinent at this juncture. First and foremost, it is apparent that this convention is one of the most independent on record. There may be a lot of smoke-filled rooms in the various hotels; however, the delegates themselves show far less disposition to be led around by the nose than has been the case in other years. We may all give thanks for that.

As an example of the apparent impotence of some of the leaders, witness the newspaper accounts of the heroic effort made by Governor Bradford to hold the Bay State delegation in line for our favorite son, Senator Leverett Saltonstall, on the very first ballot. It is hard for me to believe that the Governor actually had to ask Governor Dewey's aid in assuring a full Massachusetts vote for our senior Senator. And that is but one of many details of the first two days' happenings.

Next we have a situation which may, perhaps, have been played up too colorfully in the press. I refer to the apparent breach between Governor Bradford and Sinclair Weeks, our former Mayor. If the papers were correct, the latter was trying to lead a "Stop Dewey" movement with which Governor Bradford was not in sympathy.

Again, there was the interesting spectacle of an apparent union between Senator Henry Cabot Lodge and Sinclair Weeks in connection with the "Stop Dewey" scheme. Political insiders have not forgotten that it was Henry Cabot Lodge who defeated Weeks for the U. S. Senatorial nomination over a decade ago. Some of Weeks' friends have never forgiven the Junior Senator for that.

Still another point. Some people found it difficult to understand how Weeks could possibly work up any real enthusiasm for Senator Taft of Ohio. They forgot, of course, that the very distinguished Fathers of these two capable statesmen, namely, John W. Weeks and former President William Howard Taft, were bosom friends over a long period of years. The younger Weeks and the younger Taft can scarcely be expected to forget the close alliance between the older generation in their families.

State Legislative Contest

Close observers have figured for some time that Reps. Rawson and Whittemore would probably have to be re-elected to their posts in the State Legislature this coming fall. The recent announcement by Harry Gath Jr. of Newtonville that he would oppose the two present incumbents means that Messrs. Rawson and Whittemore will have to do a bit more than go through the motions of campaigning. To be sure, it is one thing to make a good showing in an Aldermanic fight, waged on a non-partisan basis and quite another to make a similar showing in a Republican primary. Even so, it would, in my opinion, be unwise for the two Legislators from the north side to take too much for granted. Later on I shall present an analysis of the vote by wards and precincts last December. Gath's followers tell me that he did remarkably well in Ward 2, his home ward. That is quite a substantial part of the entire district.

There is another possible can-

didate for a seat from the north side. However, certain non-political factors make it inexpedient for me to mention names right now. Do not, however, be surprised if you hear of another announcement within a month or so. Just for the record, incidentally, I am informed by William E. Halliday Jr., that he is definitely NOT a candidate. This is mentioned because it was quite recently that his name was referred to in this space.

Legislature Prorogues

As so frequently happens, our State Legislature wound up in something less than a blaze of glory in the wee small hours of the morning last week. Political commentators who report the proceedings of this august body regularly appear to be divided in their opinions. One man criticized it acidly, almost without reservation; another was polite, mild and charitable in the extreme. In a week or two, I hope to analyze the good and the bad legislation passed this, past term. All I have to say now is that it looks as

though the Senate had played a very shabby game of politics in the hectic, closing days of the session. The \$100,000,000 Highway program should most certainly have been enacted into law. Cynical politicians tell me that each party was afraid that the other party would profit by way of having loads and loads of patronage at its disposal. If that is true, I suppose one can understand the savage reluctance of the sixteen die-hard Democrats in the State Senate. A bond issue requires a two-thirds vote and the G.O.P. did not have any such margin within its own ranks. In the meantime, UNLESS there is a special session of the Legislature, the vitally-important highway program is dead as a dodo. And, as Governor Bradford said, the Democrats have handed him a perfectly wonderful campaign issue on a platter. Sounds reasonable, does it not?

Oh, yes; the solons, after voting themselves a pension a few weeks ago, went to work in the closing days and raised their own salary once again.

Praise—

(Continued from page 1)

The plaque has been highly praised as the best of Mrs. Osborne's works. Those present at the testimonial dinner given to Dr. Arbuckle, when the plaque was unveiled, expressed much approval of Mrs. Osborne's ability in achieving a perfect reproduction of the minister. She was complimented upon the perfect likeness; the well-known twinkle in his eyes has been vividly reproduced. Others who view the plaque, that has temporarily been placed in the First Baptist Church, Newton Centre, have also favorably commented on Mrs. Osborne's work.

Other plaques that bear Mrs. Osborne's professional name of Hester Hawes Osborne include that of Gamaliel Bradford, "The Searcher of Souls"; Ignace Jan Paderewski, world famous music composer-director; Rev. Edward T. Sullivan, Rector of Trinity Church, Newton Centre, 1891-1942; George William Coleman, Founder of the Ford Hall Forum; Joseph H. Hawes, retired art teacher in Boston Public Schools for 25 years and father of the sculptor Mrs. Osborne.

Hester Hawes Osborne, in an interview with "The Graphic," has declared that she had enjoyed immensely doing Dr. Arbuckle's plaque. According to Mrs. Osborne, Dr. Arbuckle was reluctant to pose but once he had decided to do so he proved to be one of her most interesting and amusing models.

The famous Polish conductor, Ignace J. Paderewski, never posed for Mrs. Osborne. In making the Paderewski plaque, Mrs. Osborne relied on photographs of him and attained a perfect reproduction of his real life features by observing movies in which Paderewski appeared.

junction of Homer and Centre streets in Ward 6.

Francis P. Turner, speaking for the transportation company, asserted that the residents of Homer street requested the bus so that their children who attended the Mason and Rice schools would not have to cross over busy Commonwealth avenue.

Mr. Jamieson's opposition was based on the fact that if the company was granted permission to operate such a bus it is therefore enfranchised to operate all its buses on Homer street. This, Jamieson said, would not be an accommodation to school children but rather added hazards.

Also opposing the granting of such a license was C. E. Woodward. He explained that by granting the license Homer street, already overburdened with traffic, will become all the more entangled. Woodward and Jamieson are both residents of Homer street.

developments in the country. Large-scale planning is being used to avoid aimless, unsuitable buildings, which could only result in architectural confusion. Willard F. Pratt, Newton's Director of Public Works, who developed the site plan, has brought to the enterprise the most advanced thinking in land and community planning.

Applicants for the houses will greatly benefit from this overall supervision which ensures that a remarkably beautiful community in which to live. The homes will have individual distinction. Monotony of style—rows of identically designed houses—will be avoided. Colors used in shingles and clapboards will be varied, and each house will be considered in its relationship to the entire development.

Every effort is being made to maintain an integrated beauty of architecture at Oak Hill Park, and to do so will require the cooperation of the applicants. The types of houses to be built on the various lots have been selected with an eye to the terrain, and the juxtaposition of the houses to each other, according to Joseph F. Kelly, president of the Kelly Corporation. He continued: "Houses have been placed on the lots with a view as to their best possible integration with the community as a whole. If the applicant wishes a certain type of house, he may choose a lot to which the house of his choice has been designated. The necessity of keeping a central architectural scheme for the community makes it impossible for the applicant to choose a lot, and order a house plan which has not been selected for the site. The lot and the design for the house to be built on it are inseparable. In no other way could the project achieve the aesthetic results envisioned for it. Choice of houses and lots will be based upon the order in which the veteran applicants have been certified by the Veterans Housing Department.

The basic house will sell for \$7820. The basic price will decrease with addition of porches, breezeways, garages, or variation of sidewalk material. Each home will have three bedrooms, living room, kitchen-dinette, bath, and utility room. One of the most interesting features of the houses will be their thermostatically controlled radiant heat.

Another interesting announcement from the management of The Boston Summer Theatre located at air-conditioned New England Mutual Hall reports that Jackie Cooper, popular star of stage, screen and radio will be the second attraction of this season in the delightful Norman Krassa comedy hit "John Loves Mary". Young Jackie Cooper is one of the most popular theatre names of this generation especially to the legion of his fans who remember his unforgettable performances in the "Skippy" and "Snooky" pictures of several years ago. "John Loves Mary" has just completed a highly hilarious two year run on Broadway and the advance interest in the Boston Summer Theatre production of the hit indicates that it would be wise to make reservations well in advance. The comedy which will be directed by Lee Falk will play at this air-conditioned playhouse for one week through the Saturday evening of July 3rd and there will be matinees at two-thirty on Wednesday and Saturday afternoons. Reservations for the comedy may be made at the box office of New England Mutual Hall, Filene's, Tyson's, Tommy Murphy's and Cashin's ticket agencies. Telephone orders are being filled at KE 6-2038. Mail orders are being filled in the order received at the box office.

Horace T. Bunker, 176 Grove Street, received the degree of Bachelor of Arts at the commencement exercises at Tufts College Sunday.

Local Kiwanis Club Host To 5 Youngsters

Five children, patients at the New England Peabody Home for Crippled Children, with Nurse Mona Bishop in attendance, were guests of the Newton Kiwanis Club at its meeting Wednesday at the Y.M.C.A. Chairman of the Newton Kiwanis Club's major project, the children at the Peabody Home, Archie Bellinger, told of the Home's almost unbelievable successes in treating and effecting cures among the young sufferers there during his eight years of experience and activity on the Kiwanis Peabody Home Committee.

Miss Bishop explained the ailments of the little guests and the methods of cure. Edward Balfe, a slim dark haired boy, "is set to go home" after five years of treatment and surgery. Barbara Healey after five years, has much treatment ahead of her, plus surgery in a long series of operations but tiny and courageous, smiled as she greeted the Kiwanians at luncheon. George Durand, at the Home since infancy (11 years) "will be going home before too long". Kitty Armstrong, another tiny tot, and infantile victim, is two years and "will be perfect soon." Kitty assisted President Frank Battles in conducting the meeting, rang the bronze gong and everything. Carol Michaud will soon be well after many years in bed. Carol's one of the fortunate ones who recovered without an operation.

James Clarke led the Kiwanians in song to welcome the cheerful little visitors and presented each one of them a gift. Eight patients were expected, but illness prevented three from attending. Gifts were given Miss Bishop for the absentees.

Vice President Harold Pillsbury recently returned from the Kiwanis International Convention, Los Angeles, Cal., told of his visit to Kiwanis offices in Chicago where the names of 180,000 Kiwanians are on file and can be located with ease. Describing his journey in a 17 car special Kiwanis R.R. Special and stop overs in Texas, New Mexico and Arizona, it was the Grand Canyon, however, that impressed them all. Hal declared, "Would bankrupt the English language to describe it." Sparkling sunshine of the West and Southwest, plus the 3000 year old Redwoods and the Mexican food obtained in the Mexican Village—an exact replica of Mexico two centuries ago, where Pillsbury ate with a fork in one hand and a glass of ice water in the other instilled in the traveler a desire to live in that fabulous land. James P. Gallagher, Newton's clerk of court, is reported to have gone native out there and to be now engaged in breaking broncos. The Texas S.P.C.A. will be contacted by Kiwanian Thomas Donnelly. Next Monday, members of the Newton Club will visit the Saco-Biddeford Club, golf and enjoy lobster at the Old Orchard Country Club's "Clambake." George White will conduct the meeting "Past President's Day, next Wednesday.

Miss Ruth Crandall attended the Alumnae Day activities at Lasell Junior College recently. It was the fiftieth reunion of her class this year.

Can Use Direct or Alternating Current

Marking another step forward in the rapidly advancing television field is the introduction of a universal television receiver which operates on alternating current of any frequency as well as direct current. This universal set eliminates the need of converters in DC areas and is now in production by Belmont Radio Corporation, Chicago, subsidiary of Raytheon Manufacturing Company.

The new receiver is a table model with a 7" direct view picture screen and it incorporates all the latest developments in television engineering. Priced at a suggested retail list of \$179.95, the set is the forerunner of the completely new video line to be marketed in the near future under the name of Raytheon-Belmont.

New Features For St. Paul's Church Frolic

Mrs. A. R. Houghton, General Chairman of the Fall Frolic to be held at St. Paul's Church, Newton Highlands, next November 5th and 6th, announces that the newly-formed Young People's Club is planning to offer as the feature event for Friday evening, November 5th, a genuine, old-fashioned New England chowder supper. Following this, the Club will offer a gala evening which will be packed with fun.

Mrs. Houghton also stated that, early as it is, there is every indication that the two-day Fall Frolic will equal, if not surpass, the highly-successful affair that aroused so much enthusiasm last year. This prediction stems, she added, from the fact that all committees are showing a most gratifying degree of cooperation.

The response on the part of parishioners to the General Committee's call for items to be sold during the Frolic gives promise that many desirable articles will be offered to those attending. However, the Committee states that more are needed. And for the convenience of those who will assist the Committee in its efforts to have a large stock as possible for prospective buyers, the following needs are listed, together with the names and telephone numbers of those who should be notified of contributions:

Donations asked for include yard goods for aprons and dolls' clothes (phone Mrs. Farrington, 41-6753, or Mrs. Smith, 41-4440); yarn (Mrs. B. McLucas, 41-7822); jewelry (Mrs. Page, 41-7241); fancy containers for plants (Mrs. Fogg, 41-7688).

Those who are willing to make any of the following are asked to phone Mrs. Houghton, DE 2-1587: Mittens, dolls' clothes, socks, gloves, scarfs, tatting or crocheting, to sell by the yard, handkerchiefs, breakfast sets, pot holders, scrap books, and anything else that is desirable, useful and salable.

In addition, items of all kinds are wanted for the frolic auction, which is in charge of Mrs. Engel BI 4-5306. The committee also is reminding parishioners that orders are now being taken for children's lovely smoked dresses, in sizes up to 8. M. S. Tilley is in charge of this activity of the fall frolic and orders may be telephoned to her at LA 7-6834.

The general committee reports that new features and the experience gained from last year, should make the coming fall frolic a most unusual and enjoyable two-day event.
